

TECHNOLOGY INTEGRATION

Did you know...

The No Child Left Behind (NCLB) legislation mandates that all students demonstrate technology literacy by the end of the 8th grade and that all teachers effectively integrate technology into classroom activities.

LEADING EDUCATORS INTO TOMORROW

Beacon Educator has a program of online courses that addresses this challenge and can be completed from the comfort of your home.

Technology Integration

The new Beacon Educator Technology Integration Program builds on the widely recognized International Society Technology in Education's NETS for Teachers (NETS•T). The program offers busy teachers a practical, accessible, and comprehensive means to address the twin challenges of technology literacy and technology integration.

COURSE TITLE	HOURS	DESCRIPTION
Technology: Operations & Concepts	30	Examine government mandates for educational reform in technology literacy and technology integration.
Technology: Learning Environments & Experiences	30	Learn how technology tools are reshaping the classroom learning environment and the act of teaching itself.
Technology: Teaching, Learning, & the Curriculum	30	Discover technology as a catalyst for replacing teacher-centered with learner-centered models.
Technology: Assessment & Evaluation	30	Examine the power of technology in redefining student assessment and promoting data-driven decision-making.
Technology: Productivity & Professional Practice	30	Explore new levels of communication and productivity provided by new technology tools.
Technology: Social, Ethical, Legal, & Human Issues	30	Investigate the human (social, ethical, and legal) dimensions of technology in American education.
