Classroom Management

Course Description

Recognize the importance of classroom management. Explore management strategies that lead to improved student motivation and achievement across all content areas and grade levels. Identify methods for creating a positive collaborative learning environment.

Course Objectives

Participants will

- define classroom management.
- identify the importance of establishing and maintaining an effective learning environment.
- identify the prerequisites for effective classroom management.
- identify strategies for creating classroom rules and procedures that support active learning.
- identify strategies that reinforce positive behavior using praise and other techniques, as well as consistently imposing consequences for misbehaviors.
- describe methods for teaching classroom behaviors and routines that encourage collaboration.
- identify proactive strategies that establish and maintain respect in the classroom.
- describe management strategies to use before, during, and after instruction in a collaborative environment.
